Project Manager:

Rosa Nunez Kobi and Meredith Jaggard

Leading legal experts will guide the audience through the difficult ethical, legal, and social implications of new technologies such as the metaverse. The metaverse is the next generation of the internet and the latest buzzword in tech. This new form of technology will allow us to immerse ourselves into a form of cyberspace that will shape new ways of interaction. While it is still difficult to assess the metaverse's overall impact it is evident that these new digital technologies will have a tremendous influence on the public sector, markets, and society. This virtual world will present unique legal challenges that will extend beyond the massive multi-user videogame platforms and virtual worlds that exist. You do not want to miss out on this opportunity to learn more about the metaverse!
