1b. Typography (Martel)

Martel font is available to all from Google as a <u>download</u> or can be selected from Google Apps (Docs, Slides, etc.) This typeface is suitable for smaller body text.

Martel in Use:

The Covid-19 pandemic has **highlighted** the acute need for workplace gender equality to be taken seriously. Women have suffered disproportionately during the pandemic and have been excluded from their employment at higher rates than men. While the low pay of those teachers, carers and healthcare workers who have propped up our societies, exposing themselves to greater risks during the toughest months, has been largely ignored. Pushing for greater **gender equality** is crucial during the coming months and years as societies start to rebuild and recover.
