BIBA UOG!

This exhibit commemorates the 70th Anniversary of the University of Guam, which has been transforming lives and advancing communities through its mission of INA, DESKUBRE, SETBE (To Enlighten, To Discover, To Serve).

Through INA, the University accomplishes the academic charge of its mission, guiding its students toward their purpose and their potential and empowering its people to create better lives for themselves, their families, and their communities.

Through **DESKUBRE**, the unique minds at the University conduct meaningful and relevant research in Guam and all of Micronesia that not only advances our collective knowledge, but also impacts our quality of life.

Through **SETBE**, our Tritons use their knowledge, resources, and expertise to remain ever-connected to our communities – through partnerships, direct engagement, and a spirit of service born out of inafa'maolek and our CHamoru heritage.

This exhibit provides you with a glimpse into the work of the University of Guam, though there is so much more behind each of these displays.

As you read about the University's programs, partnerships, and – most importantly – its people, we invite you to reflect on the University of Guam's reach across the island, throughout the region, and around the world.
